EDUCATION:

V.S.B ENGINEERING COLLEGE , KARUR 2023 - Present

B.Tech - Artificial Intelligence and Data Science

CGPA : 8.30

CARMEL GIRLS HR SEC SCHOOL 2021- 2022

SSLC - ALL PASS

CARMEL GIRLS HR SEC SCHOOL 2022 - 2023

HSC - 86.6%

SOFT SKILLS:

- TeamWork
- Time Management
- Leadership
- Content Creator

TECH SHILLS:

- Java
- Python
- SQL
- Machine Learning

LANGUAGE:

- English
- Kannada (native)
- Tamil

CAREER OBJECTIVE:

A calm and focused Artificial Intelligence and Data Science student with a strong passion for problem-solving and software development. Completed a Java internship with hands-on experience in Java, Object-Oriented Programming, Data Structures, and SQL. Eager to learn new technologies, enhance my technical skills, and contribute to innovative solutions while growing as a software professional.

PROJECTS :

Voiceplus AI SmartQ System:

Developed a voice-enabled smart queue management system to improve customer service efficiency. The system allows users to interact through voice commands and manages queues automatically. It includes a missed-turn handling feature that helps customers rejoin the queue without manual intervention. The solution enhances user experience and reduces waiting time in service environments.

Real Time Disaster Information Aggregation:

Developed a web-based disaster monitoring and risk prediction system that gathers information from multiple data sources. The application provides real-time alerts and visualizes disaster-related data through an interactive dashboard. Basic AI and machine learning techniques were used to analyze risks and support decision-making during emergencies.

INTERNSHIP :

JAVA :

Completed a Java Internship that provided practical exposure to Java application development and programming concepts. Developed a strong foundation in Core Java, Object-Oriented Programming, Collections, Exception Handling, File Handling, and JDBC. Enhanced technical, problem-solving, and debugging skills by completing hands-on coding exercises and project-based learning, preparing for software development roles.
